

California OES Weather Threat Briefing

Sunday, April 11, 2021
9:00 AM PDT

Day 1 (Sunday): Locally gusty winds and low humidity will lead to elevated fire weather conditions across the southern California mountains and deserts again today.

National Weather Service
Western Region Headquarters
Regional Operations Center
Salt Lake City, UT

WEATHER KEY POINTS

04/11/21 - 04/17/21

Sunday-Saturday

- Elevated winds and fire weather conditions are expected for the southern California Mountains as well as the adjacent deserts and passes through Sunday morning, and then again Sunday evening through Sunday night.
- Dry and breezy conditions Sunday, Tuesday, and Wednesday may lead to elevated fire weather concerns across the Sacramento Valley
- The marine layer moves into southern California late Sunday night, continuing through Wednesday, bringing gusty winds across the Antelope Valley on Monday afternoon and continuing each afternoon. Some rain or drizzle is also possible across coastal southern California later Monday into Wednesday, though any rainfall amounts will be light
- Another round of gusty winds and elevated fire weather concern is expected across the central valley and southern mountains and deserts on Tuesday and Wednesday.
- Some minor snow accumulation is possible over the Sierra Tuesday and Wednesday
